Mango Live Edge: A Tropical Treasure

Mango live edge wood is a stunning choice. Its unique, organic patterns and warm, golden tones evoke the beauty of the tropics. Mango live edge features intricate patterns and a rich, warm color. This wood is known for its strength and resistance to decay. Mango live edge wood is perfect for creating stunning pieces that showcase the natural beauty.

Application Use:

Architectural

Commercial

Institutional

Residential

Specifications

The contour shower seat is manufactured using high quality 12 gauge 304 stainless steel. The all stainless steel barrel of the seat allows the bottom to fold up and sit flat against the wall when not in use.

1" thick live edge seat is durable and easy to keep clean.

The upper slat is removable to access the 8 wall mounting screw ports.

The installation of the contour seat is simple, easy, and quick. It is imperative when installing any shower seat to consult with a qualified contractor to insure you have the sufficient backing to support the seat.

The Life Line Collection

The Contour shower seats are designed and tested to exceed 500lbs and come in both 18" and 26" wide versions.
