

Contour Seat - 18" Epoxy Teak Ocean Inspired

Teak is the Ultimate Combination of Beauty and Durability.

Teak and Ocean inspired Epoxy is a Perfect Union. Imagine a stunning live edge piece, infused with the essence of the ocean through a beautiful epoxy design. The warm, golden tones of the teak wood perfectly complement the deep blues and greens of the epoxy, evoking the movement of the waves.

Application Use:

Architectural

Commercial

Institutional

Residential

Specifications

The contour shower seat is manufactured using high quality 12 gauge 304 stainless steel. The all stainless steel barrel of the seat allows the bottom to fold up and sit flat against the wall when not in use. 1" thick live edge seat is durable and easy to keep clean.

The upper slat is removable to access the 8 wall mounting screw ports.

The installation of the contour seat is simple, easy, and quick. It is imperative when installing any shower seat to consult with a qualified contractor to insure you have the sufficient backing to support the seat.

Ocean Inspired

The Life Line Collection

The Contour shower seats are designed and tested to exceed 500lbs and come in both 18" and 26" wide versions.
