

Contour Seat - 18" Teak

Teak Live Edge Slabs: Nature's Masterpiece

Teak live edge slabs are renowned for their stunning beauty and unique character. The wood's rich, warm tones and intricate patterns evoke the essence of the tropical islands where it's native. Each slab is one-of-a-kind, with its own distinct patterns and markings. They are sure to impress with their natural beauty and unique character.

Institutional

Residential

Specifications

The contour shower seat is manufactured using high quality 12 gauge 304 stainless steel. The all stainless steel barrel of the seat allows the bottom to fold up and sit flat against the wall when not in use. 1" thick live edge seat is durable and easy to keep clean.

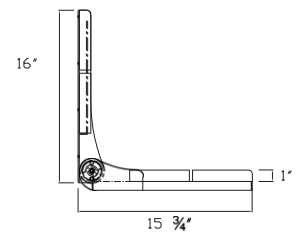

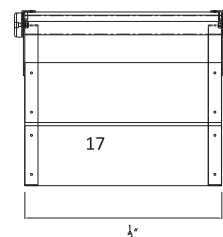

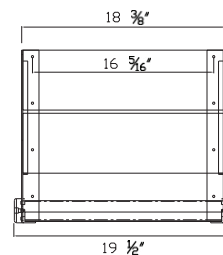

The upper slat is removable to access the 8 wall mounting screw ports. The installation of the contour seat is simple, easy, and quick. It is imperative when installing any shower seat to consult with a qualified contractor to insure you have the sufficient backing to support the seat.

The Life Line Collection

The Contour shower seats are designed and tested to exceed 500lbs and come in both 18" and 26" wide versions.
