

Contour Seat - 26" Teak Epoxy

LL-Series

Teak Live Edge Slabs: Nature's Masterpiece

Teak is the ultimate combination of beauty and durability. Imagine a stunning live edge piece, infused with a colored epoxy design. The warm, golden tones of the teak wood will perfectly complement the color of the epoxy. Each slab is one-of-a-kind, with it's own distinct patterns and markings. They are sure to impress with their natural beauty and inuque character.

Residential

Specifications

The contour shower seat is manufactured using high quality 12 gauge 304 stainless steel. The all stainless steel barrel of the seat allows the bottom to fold up and sit flat against the wall when not in use.

1" thick live edge seat is durable and easy to keep clean.

The upper slat is removable to access the 8 wall mounting screw ports.

The installation of the contour seat is simple, easy, and quick. It is imperative when installing any shower seat to consult with a qualified contractor to insure you have the sufficient backing to support the seat.

The Life Line Collection

The Contour shower seats are designed and tested to exceed 500lbs and come in both 18" and 26" wide versions.
