

# Water Dam

with 2 options for the end caps: 90 degree end cap • radius end cap

Collapsible  
Water Dam

## Application Use:

## Specifications

Polar EPDM is durable, easy to clean and resists allergens.  
Helps provide safety and mobility – easy roll in for wheelchairs.  
Curb-less shower barrier and retention system keeps water inside threshold.  
Collapses easily by foot or wheelchair then returns to shape.  
Stops water and keeps bathroom floor dry eliminating need for bathroom floor drain.

Collapsible Dam measures 1" x 1"  
Comes with 3m peel off sealant strip.

90 degree end cap

radius end cap

## The Collapsible Water Dam

LAUR-Dam Collapsible Threshold Water Dam System is designed for all types of barrier free showers.

It is made of Polar White Closed Cell EPDM Sponge whereas many other retainers are made of rubber or Neoprene.

Available in white and in any length including bulk rolls.
